

Maximise efficiencies in your washroom

Install POWER FOAMS
and ensure you gain
the benefits

- Cost efficient
- Low maintenance
- Kinder to the environment

POWER FOAMS INDUSTRIAL SOAPS

POWER FOAMS LAST UP
TO **TWICE AS LONG AS**
TRADITIONAL SOAPS IN
INDUSTRIAL WASHROOMS

With only one shot of foam soap required,
even for heavy duty contamination, these
powerful formulations go so much further.

Fewer cartridges mean less dispenser
maintenance, more cost efficiencies and
reduced impact on the environment.

RESEARCH REVEALS CHOICE OF HAND SOAP EFFECTS SKIN HEALTH & BUDGETS

Industrial workers are exposed to dirt and contamination on a daily basis. The working conditions lead to frequent hand washing and research undertaken by Deb, the Skin Care division of SC Johnson Professional™, has revealed that many workers are using soaps that are not fit for purpose. The soaps are either too mild and not able to tackle the dirt, which leads to excess product being used. Or, the soaps are too harsh for the task and are damaging to the skin.

Using unsuitable soaps can cause skin health issues for employees and unnecessary costs for business.

POWER FOAMS UNIQUELY DELIVER XTRA POWER + XTRA CARE

An innovation in foam soap technology, **POWER FOAMS** offer a solution for all industrial environments. Clinically proven to care for the skin, they leave hands feeling conditioned and cared for, no matter how stubborn the dirt.

Caring for the environment too, Power Foams have been awarded EU Ecolabel certification, having illustrated that they have a reduced environmental impact through their lifecycle, from extraction of raw materials to production, use and disposal.

POWER FOAMS INDUSTRIAL SOAPS

Estesol® **FX**™

GENERAL DIRT | GRIME | OIL | GREASE
