

# PROBLEM SOLVER

## PERFECT ILLUMINATION FOR YOUR CLEANROOM

# THORN

ZUMTOBEL

**Problem:** A UK company specialising in the preparation of food required a lighting solution that would ensure the system complies with the latest regulations for lighting in food preparation areas.

**Solution:** Zumtobel's **Clean luminaire** focuses on basic cleanroom requirements such as good hygiene and ease of cleaning.

The PMMA acrylic glass panel enclosed by a high-quality, anodised aluminium frame ensures a high level of shatter protection as required in the production of foodstuffs.

Clean incorporates the latest in LED technology making the range extremely efficient and efficient in terms of energy and costs.
